SUMMARY

Product Manager with 4+ years of experience owning strategy, launch, and growth for a \$200M+ revenue portfolio contributing 70% of company EBITDA. Proven track record of turning customer research into shipped products — from a brand-new fraud-prevention app built and approved for release in under a month, to pricing and segmentation strategy that drove double-digit YoY growth. Skilled in cross-functional leadership, data-driven decision-making, and translating ambiguous problems into roadmaps engineering teams can execute against.

CORE SKILLS

Product: End-to-End Product Launch · Roadmapping & Prioritization · Pricing Strategy · Voice-of-Customer Research · Prototyping · Process Mapping · AI-Augmented Product Development · A/B Testing · Go-to-Market Strategy

Technical: SQL · Tableau · Mixpanel · Salesforce · Jira · Agile/Scrum

Leadership: Cross-Functional & Offshore Team Leadership · Executive Stakeholder Management · Lean Six Sigma Green Belt

EXPERIENCE

Product Manager III | ACV Auctions

Sep 2025 – Present

- Conceived, built, and launched ACV Verify, a fraud-prevention mobile app, in under 4 weeks (prototype to App Store approval) after identifying 9 fraud incidents totaling \$400K in quarterly losses — led customer research, AI-assisted prototyping, a 1.5-week engineering sprint, and go-to-market collateral.
- Own product strategy for a \$200M+ revenue line contributing 70% of company EBITDA, identifying growth opportunities in fraud prevention, premium service segmentation, pricing, and cross-product synergies.
- Drove consistent YoY growth on a mature product: +11.6% revenue, +14% profit, +9% unit volume, and +150% growth in a newly launched market segment.
- Built and launched a Tableau-based internal operations platform supporting 500K transactions/year, 30K quotes/year, and 100+ daily users.
- Selected as 1 of 10 finalists from 100+ applicants to deliver a live product pitch at NADA Show 2026.

Product Manager II | ACV Auctions

Apr 2024 – Sep 2025

- Launched a customer-sourced pricing strategy initiative, driving 500+ incremental units/month.
- Identified an unmet need in secure pickup logistics; partnered with an offshore engineering team to launch an MVP to 5,000+ business customers within 1 month, establishing the company as the industry leader in fraud prevention.
- Managed cross-functional relationships across the C-suite, Operations, Engineering, and Analytics to align strategy and drive profitability initiatives.
- Built and led a 5-person offshore engineering team, maintaining a 6-month product backlog supporting 20 engineers.
- Selected as the topic of a CEO media campaign during Used Car Week; nominated to represent the company at the Women in Automotive Conference.

Sr. Business Operations Analyst – Pricing Product | ACV Auctions

Apr 2022 – Apr 2024

- Led a customer onboarding redesign from concept to launch, reducing fraud-related bad debt by an estimated \$500K–\$1M in a single quarter.
- Consolidated 20+ fragmented operational processes into 5, unlocking \$400K in incremental quarterly revenue.
- Documented product requirements in Jira and managed a 6-person offshore engineering team to ensure on-time execution.
- Authored a CRM platform strategy, incorporating Salesforce best practices, adopted to modernize the company's CRM approach.

Business Operations Analyst – Pricing Product | ACV Auctions

Apr 2021 – Apr 2022

- Partnered cross-functionally to develop and execute strategic initiatives for the COO and CEO; built financial and customer KPI reporting frameworks.
- Led pricing reviews and business planning with team leads and executives; directed resourcing strategy across the Operations department.
- Supported a loyalty program representing 35% of total company volume.

HR Analyst | Independent Health

Nov 2020 – Apr 2021

- Built an automated Excel process to convert job descriptions to a new template; supported HRIS data audits using Workday.

HR Generalist | Aleron

Jul 2020 – Nov 2020

- Delivered a workforce turnover analysis to senior leadership and recommended compensation packages using Payfactors and Emsi benchmarking data.
